

## 2011-12 AMES SCHOOL TRAFFIC SAFETY PLAN

The following traffic plan will be put into place starting on Wednesday, August 31, 2011. Please refer to the diagram above and details below.

Children should be dropped off or picked up at the main entrance walkway only. Please do not drop off or pick up at the KDG driveway. Students should use the passenger side of the vehicle to exit the car. No child should run across the street in the zone or leave the car from the driver's side for safety reasons. *No parking is allowed on either side of Southcote Road in front of the school!* If you park on Southcote Road, you will be ticketed. No parking is permitted by the yellow marked curbs near crosswalks.

Parents are not allowed to drop-off, pick-up, or enter the back parking lot in a vehicle before, after, or during the school day. Students are not allowed to cross Loudon Road for pick-up or drop-off. Parents may park their cars on Loudon Road and proceed to walk to the school to pick up their children.

### DROP-OFF PROCEDURE

Parents are to enter the zone from the East end of Ames School to drop-off their children. The children should be dropped off or picked up in the three designated car drop off spaces in front of Ames School. Staff members and/or safety patrols will be standing by the drop off spaces to assist children with getting out of the cars. Once the students have exited the cars safely, the staff member will direct the three cars to pull away. Then, the next three cars will pull into the spaces and follow the drop-off procedure.

### PICK-UP PROCEDURE

The pick-up procedure is similar to the drop-off procedure. Parents can pick up students by pulling into the three designated pick-up spaces in front of Ames School. Staff members and/or safety patrols will assist students with getting into cars. Once the children are in the cars, the cars will slowly drive away. Then, the next three cars will pull into the three designated spots and follow the pick-up procedures.

**Thank you for your cooperation with these procedures.**
