

Used Cell-phone & Battery Collection Drive

Blythe Park will be sponsoring a used cell-phone and battery collection drive. We are asking families to donate their used cell-phones and small household batteries to promote proper recycling of electronic waste. The drive will begin Wednesday, December 1st.

Accepted items: used cell-phones & household batteries

Collection box will be located outside the main office.

Donation deadline: Friday, December 17th, 2010

The e-waste will be properly disposed at the **call2recycle** recycling plant which specializes in proper disposal of electronics. Usable cell-phones will be donated to the **CELL FOR PHONES FOR SOLDIERS** program which refurbishes and distributes phones to soldiers, allowing them to have contact with their families.

Hello! My Name is Fallon Ryan and I am a graduate of Blythe Park Elementary. I am thrilled that the Blythe community will be hosting my collection drive. I am currently competing for a scholarship that is granted to a college student who conducts an eco-friendly community-service project. Thank you for your help and participation. Any questions can be e-mailed to me at fallon814@aol.com.
