

# Hollywood School and Afterschool Enrichment Solutions present “Let’s Build It!” Engineering *with Professional Instruction*

*This class takes a hands-on approach to engineering, allowing students to directly engage with basic engineering concepts through a variety of fun and educational activities. Students will improve their problem solving, math, and physics skills – all while engaging in exciting building projects. Open to grades 1-6.*

Winter Session: 8 classes on Mondays, 3:00-4:00pm.  
January 25 – March 21, 2016. No class 2/15.

**Let’s Build It – Crazy Circuits!** is an exhilarating, cutting-edge area of engineering. In this unit, students will design, build, and test various circuits and electronic projects. Instructors will guide students through core concepts of electrical engineering, introducing them to circuits and electrical components. Students will use hands-on projects and experiments to explore how electricity is part of our daily lives. **No previous experience is necessary**, just a desire to learn and build. Projects will include: a disc launcher, electronic games, musical instruments, alarms, and more, along with fun-filled class activities! Each student will receive an award on the last day of the session, as well as the opportunity to earn engineering belts to demonstrate their learned skills!
