

Science Fair Registration Deadline Extended to January 6th!

Thank you for everyone that has registered for the Hollywood Science Fair. We hear that there are some that would like a little more time to think and plan a project. To encourage those efforts, the Science Fair registration deadline has been extended to **January 6th!**

Remember that each participant **MUST** register using the [online application](#) to participate in the January 28th Science Fair! If you are working as a pair, BOTH students must submit their own application so that all parents/guardians are aware that their student is participating in the fair.

For the complete Science Fair planning guide, see [Science Fair Planning Guide 2015](#).
